FY25 Corps Data Snapshot: Miles of Trail Built or Improved

At a Glance: Miles of Trail Built or Improved by Corps

	Corps		Total
Top Overall		Northwest Youth Corps	**4,564**
Top Small Corps		Community Training Works	**905**
Top Medium Corps		Mt. Adams Institute	**2,878**
Top Large Corps		Northwest Youth Corps	**4,564**

For the purpose of this document, we define Corps as follows:

- **Small Corps:** 1-50 Corpsmembers
- **Medium Corps:** 51-400 Corpsmembers
- **Large Corps:** 401 Corpsmembers or more

Overview

Trails connect communities with nature, offering opportunities for recreation, education, and conservation. Conservation Corps carefully plan and work alongside environmental experts to ensure our trails minimally impact natural habitats while remaining accessible and enjoyable for all visitors. From rugged backcountry trails to smooth, accessible paths, Corpsmembers help provide a variety of trail experiences for different users. Maintenance is a year-round commitment, with seasonal crews undertaking tasks such as clearing fallen trees, controlling erosion, updating signage, and making safety enhancements. Corps programs also partner with local communities, schools, and volunteer groups to foster a sense of ownership and stewardship for these shared resources.

Top Overall	
Northwest Youth Corps	**4,564**
Northwest Youth Corps (NYC) delivers outdoor experiences that combine community service with career readiness. Operating across the Pacific Northwest, NYC engages young adults in critical conservation work, including the construction and maintenance of miles of vital trail networks. Through a curriculum of education and hard work, members gain the certifications and grit needed to bridge the gap between their first summer job and a lifelong career in natural resource management.	
Conservation Legacy	**4,017**
Mt. Adams Institute	**2,878**
Montana Conservation Corps	**2,250**
PowerCorps Boston	**2,000**
Student Conservation Association	**1,895**
Kupu	**1,149**
Community Training Works	**905**
Sacramento Regional Conservation Corps	**688**
American Conservation Experience	**296**

Top Small Corps	
Community Training Works	**905**
Community Training Works, Inc. operates the Young American Conservation Corps program, combining workforce development with environmental conservation. Through habitat restoration projects, Corpsmembers gain hands-on experience while helping rebuild damaged ecosystems. The program provides underserved young adults with pathways to conservation careers while contributing to meaningful environmental improvements in their communities.	
Eastern Sierra Conservation Corps	**250**
Maryland Conservation Corps	**182**
AmeriCorps St. Louis	**178**
Rockland Conservation & Service Corps	**64**
New Jersey Youth Corps of Philipsburg	**33**
The C.R.E.W.	**25**
Climb Community Development Corporation	**25**
CorpsTHAT	**11**
GEM Corps	**10**

Top Medium Corps	
Mt. Adams Institute	**2,878**
The Mt. Adams Institute (MAI) is a nonprofit organization that connects people with the natural environment through education and service opportunities. Through their VetsWork and Public Lands Stewards programs, MAI provides essential support for trail maintenance and development projects, offering training in sustainable trail building and coordinating volunteer events while creating career pathways in conservation and outdoor recreation management.	
PowerCorps Boston	**2,000**
Kupu	**1,149**
Sacramento Regional Conservation Corps	**688**
Maine Conservation Corps	**296**
Utah Conservation Corps	**266**
Rocky Mountain Youth Corps - NM	**237**
Conservation Corps Minnesota & Iowa	**206**
Rocky Mountain Conservancy	**166**
Great Basin Institute	**151**
