FACT SHEET:
The Corps Network 2026 Annual Profile

The CorpsNetwork

Questions?
Please contact Katie O'Hara at kohara@corpsnetwork.org

The Annual Profile is a request from The Corps Network (TCN) for Corpsmember and Project data from each of our 150+ full-member Corps. The deadline for the 2026 Annual Profile is **November 20, 2026**. Your completion of the Annual Profile is essential for The Corps Network to be able to best serve your organization and the Corps movement.

Why the Profile is Important

The Corps Network relies on your data to advocate for Service and Conservation Corps in Congress, at federal agency meetings, and with private funders. We also use this data to plan for TCN's current and future projects. TCN often determines which Corps are a good fit for potential projects by reviewing their annual profile data. Without your data, we may not know which projects are relevant to your program. We rely on the information received through the annual profile to ensure the enduring success of Service and Conservation Corps.

Is this a Requirement?

Yes, your membership renewal requires that you complete the Annual Profile. If you are an accredited Corps, a subgrantee, or receive Education Awards through The Corps Network, your access to those programs may be negatively affected if an annual profile is not submitted on time.

If I did not have an AmeriCorps program, should I still fill out the Annual Profile?

Yes, the annual profile is designed to collect data on all of the members of your Corps regardless of their AmeriCorps or program status. If they have served with your Corps, we would greatly appreciate their inclusion in your Profile.

Planning Ahead

The Corps Network has gathered Corps data since 1992. As we standardize outcomes and metrics across the field, much of the information we gather will stay the same. Consider this year's profile when planning for next year, but be aware that we may add

metrics or change definitions.

Accessing the Form

Each Corps is sent a unique link to access their form. The link is included in the annual profile email and embedded at the top of your "My Dashboard" page in the Member Hub of The Corps Network's website (log in here).

Reporting Period

The reporting period will vary from Corps to Corps. We ask that you report on the most recent completed program year. For example, if you typically run programs from July to June of each year, we ask that you report on the cycle that ended in June of this year. If you typically run programs from January to December, you should report on the most recent completed program year **not** the program year that is currently operating.

Corps that enroll members on a rolling basis can use the standard July to June time frame.

What matters most is consistency. Try to keep your reporting time frame consistent year over year to avoid duplicating Corpsmember data.

Why are Some Fields Already Filled Out?

This form is used to both update Corps information as well as collect data on your current program year. Please review these pre-filled answers and make corrections as needed.

Saving Your Work

The Annual Profile is submitted via the Formstack platform, which does have a "save and finish later" feature. If you click the "save" button at the bottom of the page, you will be prompted to enter an email address, and you will receive an email with a link to the saved version of your form. **Important: Please note that the form does not autosave**, so you will need to click "save" each time you want to save progress. Make sure you press "submit" when you are finished.

Paper Form

A paper version of the survey is available for Corps that coordinate annual profile responsibilities across their organization. Be advised that TCN staff will not accept paper forms as submissions. You must submit the online form to complete your annual profile successfully. The paper form can be found here.

Profile Glossary

The Annual Profile Glossary comprehensively defines all terms and phrases used within the Annual Profile, ensuring clarity and consistency. The Profile Glossary can be found here.

I received an error message, But all the Fields Are Complete

If you received this error message, click “ok” and then make sure to save your progress using the “save and finish later” link. Contact TCN staff, and they will work with you to submit the form once the issue is resolved.

How can I provide feedback on the Annual Profile?

The Annual Profile is reevaluated each year by the Corps Impact Working Group which is made up of data and reporting professionals from Corps across the country. The join the Corps Impact Working Group, please contact Katie O’Hara at kohara@corpsnetwork.org.
