The Corps Network 6th Annual Great Outdoors Day of Service

When: Friday, June 14, 2019

Where: Theodore Roosevelt Island, Washington, DC

Learn more: <https://corpsnetwork.org/day-of-service/>

June is Great Outdoors Month®: a celebration of America's public lands and waters and the many ways to enjoy them. Organizations and municipalities host events throughout the month to encourage people to **#EscapeTheIndoors** and recreate.

The Corps Network recognizes Great Outdoors Month® with our Great Outdoors Day of Service in Washington, DC. **Friday, June 14, 2019 is our 6th Annual Day of Service.** The purpose of the event is to:

1. **Inspire** people to get outside and contribute to the preservation of America's natural spaces. Hiking, biking, camping, fishing – so many outdoor activities would not be possible without proper stewardship of our park infrastructure and resources. All of us can pitch in to maintain the places and habitats that support our favorite activities.
2. **Raise awareness** about the role of service and stewardship in protecting and improving public lands.
3. **Celebrate** the service of the stewards who protect our natural treasures.
4. **Make a Difference.** We hope to make a dent in the backlog of maintenance projects at parks in the nation's capital, thus helping our resource management partners focus on other priority projects.

Outdoor enthusiasts, friends of the Corps movement and young people from Corps across the country will participate in the Day of Service. The event will involve invasive species removal and other maintenance and improvement projects at **Theodore Roosevelt Island**, a National Park Service site in Washington, DC. Learn more at <https://corpsnetwork.org/day-of-service/>

**You can help us celebrate stewardship and the impact of service on our public lands
by supporting the 2019 Great Outdoors Day of Service!**

About Corps and Stewardship

Every year, volunteers contribute countless hours to the maintenance and improvement of public lands and waters. Their service helps resource managers maintain our favorite places. In 2017 alone, volunteers served 7.2 million hours with the National Park Service. Since 1972, volunteers have provided over 123 million hours of service to the U.S. Forest Service.

Corps are locally-based organizations that engage young adults and veterans in up to year-long terms of service addressing community and conservation issues. Through their service, "Corpsmembers" gain hands-on work experience, build their résumé, earn certifications, and develop valuable skills in communication and leadership. Corpsmembers often serve on public lands, completing projects focused on habitat restoration, trail maintenance, urban forestry, disaster response, and green infrastructure.

About The Corps Network

Established in 1985, The Corps Network is the national association of service and conservation corps (Corps). Our 130 Corps provide young adults and veterans the opportunity to serve our country through service on public lands and in rural and urban communities. The Corps Network supports Corps by advocating on their behalf, providing access to funding and projects, and offering expertise in Corps operations and programming.
