### About The Corps Network National Conference

The Corps Network National Conference is a place to connect with people across the country who seek to build stronger communities and create a sustainable future. Join us to meet fellow professionals working in national service, conservation, youth development, and government. #CorpsCon25 will provide an opportunity to learn new ideas in these fields and collectively think big about how our country can better support our greatest resource – our young people – while also managing our natural resources and communities for the benefit of future generations.

### About The Corps Network

Founded in 1985, The Corps Network is the National Association of Service and Conservation Corps. Our 150+ member Corps provide young adults the opportunity to serve our country through projects on public lands and in rural and urban communities.

The Corps Network supports Corps through advocacy, providing access to funding and project opportunities, and by offering expertise in Corps operations and programming.

### About Corps

Corps are local organizations that engage young adults (generally ages 16 – 30) and veterans (up to age 35) in service projects that address conservation and community needs. Through a term of service that could last from a few months to a year, Corps participants – or “Corpsmembers” – gain work experience and develop in-demand skills. Corpsmembers are compensated and often receive an education award or scholarship upon completing their service. Additionally, Corps provide participants educational programming, mentoring, and access to career and personal counseling. [Learn more](#)
