About

Introduction working with the Deaf community in conservation and recreation fields. A training provided virtually or in person for people and organizations interested in or already working with Deaf, Hard of Hearing, DeafDisabled, DeafBlind and late deafended individuals or the Deaf Community as a whole. That covers topics including Deaf community/culture, Hiring and working with interpreters, working with Deaf and hearing leaders, how to work and communicate safely in the outdoors, Minimize risks and emergency situations.

Wilderness First Aid - In partnership with Base Medical, WFA courses taught in American Sign Language for Deaf, Hard of Hearing, DeafDisabled, DeafBlind and late deafended or hearing signing individuals to have access to being certified in their native or preferred language.

Leave No Trace - Level 1, 2 trainings in partnership with the Leave No Trace Org. Taught in American Sign Language for Deaf, Hard of Hearing, DeafDisabled, DeafBlind and late deafended or hearing signing individuals to have access to being certified in their native or preferred language.

American Sign Language Courses for the Outdoors- For land managers, conservation corps or individuals in the recreation field who are interested in learning conversational ASL to better interact with Deaf, Hard of Hearing, DeafDisabled, DeafBlind, late deafended or hearing disabled individuals who use ASL. Courses are virtual taught by native Deaf signers who are outdoor enthusiasts. Students will learn how to communicate in ASL with a focus on outdoor terminology and topics. 4 different levels of ASL from beginner to conversational are offered. Students will have access to a classroom platform where they will complete out of class assignments to practice their signing, a bi-weekly virtual ASL meet up to practice signing with other students and instructors and individualized attention from their instructors with small (3-8 student) classes.

Individually tailored training for corps and organizations working with the Deaf Community in need of trainings offered in ASL, direct communication, to ensure full access for members. Topics include but are not limited to: Trail building and maintenance; habitat restoration; risk management; saw training; conservation landscaping; camping and outdoor skills,job development; self advocacy and leadership skills.

American Sign Language Outdoor Interpreting Trainings - CEU offered trainings for ASL interpreters interested in interpreting in outdoor and conservation settings. Trainings ensure interpreters are knowledgeable in outdoor terminology, best practices, and ethics that are unique to outdoor and conservation settings.

Upcoming Trainings

For upcoming trainings visit our website: www.corpsthat.org/events

For upcoming public trainings visit: https://corpsthat.org/asl-classes-for-outdoor-professionals

Public Courses
Our public courses are open to individuals interested in developing ASL skills specific to outdoor settings. These courses provide an opportunity for staff, volunteers, and outdoor professionals to build foundational ASL skills and confidence.

Private Courses
Organizations can also bring a private ASL course directly to their team. Private courses can be customized around an organization's programs, terminology, and communication needs.
